

Technical Data Sheet

Pedestrian Barrier

A simple solution to protect and segregate pedestrians and MHE

Features and Benefits

- Highly durable plastic for long lasting protection
- Flexes on impact and reforms shape
- Variety of highly visible colours available
- Use in temperatures as low as -40°F

Description

Low maintenance High Density Polyethylene (HDPE) plastic barriers only need replacing when frequent, major impact has occurred.

Unlike metal barriers, there is minimal floor damage when impact occurs, saving maintenance costs long term.

Available in a range of striking, high visibility colors that are easily detectable, preventing accidents before they happen.

Fully recyclable and non-toxic. Suitable for use in food production facilities and freezer environments.

Property	Specification
Height	45.23" (post)
Width	9.45" (footplate)
Length	19.69" upwards
Temperature Range	-40°F to 122°F
Color Options	Colorfast Yellow & Gray Hi-Vis Yellow & Blue Safety Yellow & Gray
