

# Technical Data Sheet

## Safety Gate

Safe and easy to use pedestrian access for any barrier system

## Features and Benefits

- Highly durable plastic for long lasting protection
- Flexes on impact and reforms shape
- Variety of highly visible colours available
- Use in temperatures as low as -40°F

## Description

Low maintenance High Density Polyethylene (HDPE) plastic gates only need replacing when frequent, major impact has occurred.

Unlike metal gates, there is minimal floor damage when impact occurs, saving maintenance costs long term.

Available in a range of striking, high visibility colors that are easily detectable, preventing accidents before they happen.

Fully recyclable and non-toxic. Suitable for use in food production facilities and freezer environments.

Property	Specification
Height	45.28"
Width	9.45" (footplate)
Length	31.50" upwards
Temperature Range	-40°F to 122°F
